

Beginning April 1, 2016 New Apple Health managed care enrollment policy – earlier enrollment

Beginning April 1, 2016, Washington Apple Health (Medicaid) implemented a new managed care organization (MCO) enrollment policy placing clients into an agency-contracted MCO **the same month** they are determined eligible for managed care as a new or renewing client. This policy eliminates a person being placed temporarily in fee-for-service while they are waiting to be enrolled in an MCO or reconnected with a prior MCO.

- **New clients** are those initially applying for benefits or those with changes in their existing eligibility program that consequently make them eligible for Apple Health Managed Care.
- **Renewing clients** are those who have been enrolled with an MCO but have had a break in enrollment and have subsequently renewed their eligibility.

Clients currently in fee-for-service or currently enrolled in an MCO are not affected by this change. Clients in fee-for-service who have a change in the program they are eligible for may be enrolled into Apple Health Managed Care depending on the program. In those cases, this enrollment policy will apply.

How does this policy affect providers?

- Providers must check eligibility and know when a client is enrolled and with which MCO. For help with enrolling, clients can refer to the Washington Healthplanfinder's [Get Help Enrolling](#) page.
- MCOs will have retroactive authorization and notification policies in place. The provider must know the MCO's requirements and be compliant with the MCO's new policies.
